## How can i access my kindle books on my ipad

Download Article Download Article The Kindle app on your iPad gives you access to your entire Amazon Kindle library without having to lug around two devices. You can use the app to read any of your purchases, and can quickly make new Kindle purchases in Safari through the Amazon store and have them delivered straight to the app. You can even transfer a variety of different types of files from your computer to your iPad Kindle app to read on the go. 1 Open the App Store. Tap the App Store icon on your iPad's Home screen to open the App Store. 2 Search for the Kindle app. Do this by typing "Kindle" into the search pane at the top right of the App Store interface and tapping the Search button. Advertisement 3 Install the iPad version of the Kindle app. Select the iPad version of the Kindle app. Tap the "Get" button next to the Kindle App in the iPad section of the search results. Tap "Install". Enter your Apple ID password and tap the OK button to install the app. Advertisement 1 Open the Kindle app. Tap the Kindle App icon on your iPad's Home screen to launch the Kindle app. This icon automatically appears once the app has been successfully downloaded. 2 Register your iPad to your Amazon account. Enter your Amazon username and password and tap the Sign In button. 3 Tap the "Cloud" tab at the bottom of the screen. This will show all of the Kindle purchases associated with your account. 4 Tap the cover of a book to begin downloading it to your iPad. You can see all of your downloaded Kindle books in the "Devices" tab. Advertisement 1 Open your iPad's Safari web browser. You cannot purchase content through the Kindle app due to Apple Store restrictions; you'll need to use Amazon's website instead. Start from your iPad's Home screen and tap on the Safari icon. 2 Go to the Kindle Store. Enter amazon.com/ipadkindlestore into the address bar and hit Enter. You'll need to tap the address bar first in order to enter text into it. 3 Sign in to your Amazon account if prompted. Enter your Amazon account information (email address and password) and tap "Sign in using our secure server." If you are already signed in, you will automatically be directed to the Kindle Store homepage. 4 Browse Kindle books. You can search for specific titles, authors or keywords using the search bar at the top of the screen, check out current deals and bestsellers, and more. To see more information about a product, tap on the title to go to the product detail page. 5 Purchase the book. From the product detail page, tap "Buy," and then "Read now." The book automatically downloads to your iPad's Kindle App, and you'll be directed back to your Kindle app's library. Once you've downloaded a book to your device, it is available to you whenever you want to read it.[1] All of your purchases are stored on your account as well, so you can download them on any of your devices. Alternatively, if you wish to browse the book, you can tap "Try a sample." An excerpt of the text will download to your Kindle App, where you can read it and decide whether to purchase the product or not. 6 Create a Kindle Store icon for your Home screen (optional). This icon will take you directly to the Kindle Store in the future. Locate the "Share" button in the Safari Menu bar at the top of the screen. The button looks like a small box with an arrow shooting out of it. From the drop-down menu of icons, select the "Kindle Store" icon to add it to your iPad Home screen. Tap "Add." Now you should have a Kindle Store icon on your Home screen. From the Home screen, tap on this icon to return to the Kindle Store. Advertisement 1 Know what can be transferred. Besides books that you purchase from Amazon, you can use your Kindle app to read a wide variety of other formats that you may have on your computer. The following types of files are supported: Document Files (.DOC, .DOCX, .PDF, .TXT, .RTF) Image Files (.JPEG, .JPG, .GIF, .PNG, .BMP) eBooks (.MOBI only) 2 Download and install the transfer software for your computer. Amazon provides transfer programs for both Windows and Mac that allow you to quickly send any supported file to the Kindle app on your iPad. The PC version can be downloaded at amazon.com/gp/sendtokindle/pc The Mac version can be downloaded at amazon.com/gp/sendtokindle/mac 3 Send compatible documents to your Kindle app. There are three ways you can transfer files once you've installed the software. The methods are the same for both PC and Mac. Right-click (Ctrl-click on Mac) on the file(s) and select "Send to Kindle". Choose your iPad from the list of devices. Open the Send to Kindle application and drag-and-drop files into it. Select your iPad from the list of devices. Print a document and select "Send to Kindle" as the printer. A new window will open, allowing you to select the device you want to send it to. Advertisement 1 Open the "Devices" tab on your Kindle app. This will display all of the books that you have downloaded to your iPad. 2 Tap the book that you want to open. Tap the cover of the book to open it and start reading. 3 Use the Kindle manual to learn more details about the Kindle app. Your Kindle App is constantly evolving to enhance features and functions. Learn more by tapping on the Kindle App icon and selecting "Device" at the bottom. Find the Kindle Manual icon and tap on it to open. Advertisement 1 Ensure that your iPad has a wireless or mobile data connection. You'll need to have a working network connection in order to receive your purchases. 2 Manually sync your library. If your purchases aren't appearing, you may need to manually sync your library with your purchase history. Tap the "Sync" button on the Kindle app's main screen. 3 Double-check that your payment information is correct. Your 1-Click payment information will need to be valid in order to successfully purchase Kindle books from the iPad.[2] Visit the Kindle Management page on the Amazon site. This is amazon.com/manageyourkindle Click the "Settings" tab. Review your payment information and correct any mistakes. Make sure to double-check the billing information as well. Advertisement Add New Question Question Can I download books without WiFi? You may use a landline to download books as well, but you do need access to the Internet. Question How can I cancel a Kindle book that I was reading? You should be able to go to settings and delete it. Question Can I read my Kindle books on my iPad without WiFi? Yes. Download the book when connected to WiFi, and it will be available when you have no connection. Question If I download the Kindle app to my iPad, will all of the books on my Kindle be downloaded to my iPad? After downloading the app, sign in with your existing Amazon account. After you successfully sign in, there will be two options: Cloud or Device. If you go to Cloud, you will see all of the books on your Amazon account. If you go to Device, you will see the books that are downloaded onto your iPad. To download books, go to Cloud and tap on the books you want to download. They will immediately start to download. They will then show up on Device, and you can read without a connection. Question My book downloaded to my Android Kindle, but it will not show up on my iPad Kindle. What do I do? If your book was downloaded from the Kindle store, it probably wasn't downloaded to your iPad. Look for books not yet downloaded and you may be able to find it. Or you could go to the Kindle store and force download it from there. If you downloaded your book from an external source (say, as a .pre file from an open source library), then you'd have to download it again with your iPad from whatever open source you found it on. Question What is wrong if my iPad suddenly won't download Kindle books from Amazon? If this happens even after you restart your device, something might be wrong with your account. Perhaps you should contact customer service or change your password. Question Can I read the books I downloaded to my iPad on my Kindle? If they're on the Kindle app on your iPad, then yes, you should be able to read them on your Kindle. Question After reading the sample, how do I get the rest of the book? There should be an option to purchase the book through the app/website you used to download the sample. Otherwise, you can find the book on Amazon's website and purchase it there. Question How do I stop books from automatically downloading on my iPad's Kindle app? My hubby and I share our Amazon account and he does not want my books on his iPad Kindle app. You can use a separate email account for the iPad app. This will enable you to read books downloaded by you without reaching your husband's account.
